

Safeti Principles

- ▶ **Principle 1**
All injuries, damage to health and environment can be prevented.
- ▶ **Principle 2**
Management is directly responsible for preventing injuries and damage to health and the environment through participation of employees.
- ▶ **Principle 3**
Every risk can be reduced to acceptable level.
- ▶ **Principle 4**
Training is an essential element in an ongoing effort to establish an injury / illness free work environment.
- ▶ **Principle 5**
Management is responsible for knowing how work is actually accomplished at the work place.
- ▶ **Principle 6**
People are the most critical element in the success of a safety and health effort.
- ▶ **Principle 7**
It is essential to investigate incidents that have a potential to injure or damage the health and the environment.
- ▶ **Principle 8**
Working safely should be clearly established as a condition of continued employment.
